

Instructions for collecting samples.

Fig. 2.1. Scotch/sello tape sampling.
Place scotch/sello tape onto pricking/biting sensation on the skin, gently lift off, place onto glass, and label location, time, and date.

Fig. 2.2. Coffee filter sampling.
Wrap coffee filter over end of vacuum cleaner hose, hold firmly, and vacuum location for specimens. When you see a disk of dirt caught by the filter, turn off vacuum cleaner, put coffee filter into a Ziplock bag, seal, and label with location, time, and date.
